OAUG Collaborate '10

We are so proud – the Asset SIG received the OAUG 2010 Certificate of Distinction Award!

A big **THANK YOU** to everyone who joined us at the Asset SIG meeting, we had a great discussion about issues that asset users are facing. It was a very interactive discussion. This conference held the most Oracle Assets presentations that I have seen in years, we had 7 asset related presentations in addition to the SIG meeting.

1. Questions to Consider When You Implement Oracle Assets
2. Closing Fixed Assets in R12, What You Need to Know to Have a Successful Close
3. Event Accounting? What's That And How Will It Impact Assets In R12?
4. Who's Booking to My Account? Reconciliation Should Not Be Hard!
5. Why Move Away From Account Generator
6. Lessons Learned From an Oracle E-Business Suite Assets Implementation
7. Handling Fixed Assets in IFRS Implementation Program

The SIG Board is attempting to offer the above presentations in a series of FREE webinars – if you were unable to attend the conference or missed one of the presentations and would like to be invited once the schedule has been finalized, please let the board know.
