

Asset SIG Times

Oracle OpenWorld 2010

A big **THANK YOU** to everyone who joined us at the Asset SIG meeting, we had a great discussion about conversion issues and timing of conversion date and go live date and the impacts on reporting. It was a very interactive discussion. We would also like to thank members of Oracle Development and the Product Strategy teams for joining us and answering any questions members had. This conference held three Oracle Assets presentations in addition to the Asset SIG:

1. I Hate Tax Books! Do They Have To Be So Hard To Define And Maintain? No!
2. Tax Book Implementation Roadmap for a Retail Company
3. Managing Fixed Assets Effectively in Oracle Assets Release 12.1
