

Asset SIG Times

Oracle Open World 2012

Once again Oracle hosted a great conference. At the SIG meeting we had the Product Strategy Director, Helle Hennings, who presented Fixed Assets Componentization and Fixed Asset Impairments. We also had two members of the Oracle Assets Development team, Gary Chen and Sundar Narayanan to give us an update on the product and to field the audience questions. All presentations will be uploaded to the SIG website.

Asset SIG eLearn '12

We were so excited to offer our second webinar back in September and we would like to thank Oracle's Vini Sondhi and Sundar Narayanan for presenting Oracle Fusion Assets. If you missed the presentation the recording is posted on the [User Communities Webinars page](#) under the Asset SIG section of the Recorded Webinars section.

We are attempting to offer regular webinars on FA topics. We would like some feedback for the group as to what topics in FA most interest you. We will then put together a list for voting so we can hit the hot items first. Please submit any and all topics to brian_bouchard@chistartec.com by the end of May.
